

MUSCLE ADAPT AND PROTECT

Training and strenuous activity place a demand on muscles. Consumers desire products that promote recovery and reduce soreness without blunting the muscles adaptive response to stress.

OptiMSM® (MSM, methylsulfonylmethane) empowers an active individual to return to training quickly by decreasing muscle pain, bolstering redox capacity, and mitigating inflammatory cytokines.

WHY OPTIMISM?

OptiMSM® is a proven source of bioavailable sulfur, 34% by weight, sparing sulfur-containing amino acids for muscle growth and sulfur for protein modification. OptiMSM increases antioxidative capacity without being an antioxidant, allowing the muscle to adapt to stress while protecting from damage.
